

ADITYA PANDEY

MERN Stack Developer | Node.js & React.js

adityapandey9977@gmail.com | +91-9977779341 | linkedin.com/in/adityapandey9977 | github.com/adityapandey9977-code

PROFESSIONAL SUMMARY

Motivated MERN Stack Developer with hands-on internship experience designing, developing, and deploying scalable web applications. Proficient in React.js, Node.js, Express.js, and MongoDB. Skilled in building RESTful APIs, implementing JWT-based authentication, and managing role-based access control (RBAC). Passionate about solving real-world problems and optimizing application performance.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), React.js, Node.js, Express.js, HTML5, CSS3

Database: MongoDB, Mongoose ODM, Schema Design, Indexing

Concepts & Tools: REST APIs, JWT, RBAC, MVC, Axios, Cloudinary, Nodemailer, Razorpay, Redux, Redux Toolkit, Google OAuth 2.0, Git, GitHub, Socket.IO

EXPERIENCE

MERN Stack Developer Apprentice | Quest Digiflex Pvt. Ltd.

June 2026 – Present

- Developed the CMS Studio for the Super Admin, handling design, implementation, and development end-to-end.
- Worked on ORM-based data modeling and integration to streamline backend data operations.
- Implemented Socket.IO for real-time chat.
- Gained hands-on experience working in an Agile team environment, using ClickUp for project management.
- Used Git and GitHub on a daily basis for version control and collaborative development.

MERN Stack Developer Intern | Ypsilon IT Solutions

Dec 2025 – May 2026

- Designed and developed scalable RESTful APIs for authentication, course management, and order processing systems.
- Created optimized MongoDB schemas with proper relationships and indexing to improve query performance.
- Implemented JWT-based authentication and role-based authorization, securing access to protected routes.
- Integrated React.js frontend with backend APIs using Axios, enabling seamless data flow across the application.
- Debugged and resolved application issues, improving performance and overall user experience.

PROJECTS

E-Learning Web Application | React.js, Node.js, Express.js, MongoDB, Razorpay, Redux, Redux Toolkit | Dec 2025 – Feb 2026

- Built a full-stack e-learning platform supporting Admin, Instructor, and Student roles with secure access control.
- Implemented JWT authentication, Google OAuth 2.0 sign-in, and middleware-based route protection for all user types.
- Developed RESTful APIs for user management, course creation, enrollments, and progress tracking.
- Integrated Razorpay payment gateway for secure transactions and Nodemailer for email verification and password reset.
- Designed scalable MongoDB schemas and ensured responsive UI with seamless frontend-backend integration.

Healthcare Appointment System | React.js, Node.js, Express.js, MongoDB | Jan 2025 – Feb 2026

- Developed a hospital appointment management system with role-based access for doctors and patients.
- Built REST APIs for user registration, appointment booking, cancellation, and retrieval.
- Designed MongoDB collections and relationships for scalable appointment data management.
- Created a responsive UI and integrated all frontend components with backend APIs using Axios.

Online Job Portal | React.js, Node.js, Express.js, MongoDB, Cloudinary, Razorpay, Redux, Redux Toolkit | Mar 2026 – Present

- Built three role-based dashboards (Candidate, Employer, Admin) with JWT, Google OAuth 2.0 sign-in, and RBAC for secure access.
- Developed RESTful APIs for job posting, application tracking, candidate shortlisting, and interview scheduling.
- Integrated Google OAuth 2.0 authentication and Cloudinary for resume and media file uploads.
- Integrated Razorpay payment gateway for employer subscription and featured job posting plans.
- Designed scalable MongoDB collections for users, jobs, applications, and notifications efficiently.
