

ADITYA PANDEY

Full Stack Developer | MERN | Node.js | TypeScript

adityapandey9977@gmail.com | +91-9977779341 | [linkedin.com/in/adityapandey9977](https://www.linkedin.com/in/adityapandey9977) | github.com/adityapandey9977-code | adityapandey99.vercel.app

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building production-oriented web apps in React.js, Node.js, Express.js and TypeScript developing RESTful APIs and authentication/RBAC, with exposure to microservices, PostgreSQL, Redis, RabbitMQ, and Docker.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, React Native, Redux, Redux Toolkit, Axios

Backend: Node.js, Express.js, REST APIs, JWT, RBAC, MVC, Socket.IO

Databases & ORM: MongoDB, Mongoose, PostgreSQL, MySQL, Prisma, Knex.js

Architecture & Infra: Microservices, Monorepo, Redis, RabbitMQ, Docker

Tools & Integrations: Git, GitHub, Postman, ClickUp, Razorpay, Cloudinary, Nodemailer, Google OAuth 2.0

EXPERIENCE

Full Stack Developer Apprentice | Quest Digiflex Pvt. Ltd.

June 2026 – Present

- Contributed to multiple production-oriented full-stack SaaS platforms using React.js, Node.js, Express.js, JavaScript, and TypeScript.
- Built full-stack features across web and mobile apps with relational database integration (PostgreSQL, MySQL), ORM-based data modeling (Prisma, Knex.js), and a microservices architecture using Docker, Redis, and RabbitMQ.
- Developed a custom CMS Studio for Super Admin content/configuration management and implemented real-time features using Socket.IO, while collaborating in an Agile team using ClickUp, Git, and GitHub.

MERN Stack Developer Intern | Ypsilon IT Solutions

Dec 2025 – May 2026

- Designed and developed scalable RESTful APIs for authentication, course management, and order processing systems.
- Created optimized MongoDB schemas with proper relationships and indexing to improve query performance.
- Implemented JWT-based authentication and role-based authorization, and integrated the React.js frontend with backend APIs using Axios for seamless data flow.

PROJECTS

Salon SaaS Multi-Tenant Platform (Live)

June 2026 – Present

TypeScript, Node.js, React, React Native, PostgreSQL, Prisma, Redis, RabbitMQ, Docker, Microservices

- Contributed to a multi-tenant SaaS platform for salon operations covering appointments, clients, staff, inventory, finance, invoicing, and administration.
- Developed full-stack features across web and mobile apps using TypeScript, React, Node.js, and React Native; used PostgreSQL and Prisma for relational data modeling, integrated with Redis, RabbitMQ, and Docker.
- Implemented appointment workflows including availability, slot management, booking, status management, and conflict handling.

Study in UAE — CMS Studio Platform (Live)

June 2026 – Sep 2026

React.js, Node.js, Express.js, MySQL, Knex.js, Socket.IO

- Contributed to a multi-tenant education platform connecting international students with UAE universities through Student, College, Agent, and Super Admin panels.
- Developed full-stack features for student registration, university/course discovery, application management, and administrative workflows, using MySQL and Knex.js for data access.
- Implemented real-time chat using Socket.IO between students and counsellors/agents, and contributed to a custom Super Admin CMS Studio.

E-Learning Web Application (Live)

Feb 2026 – June 2026

React.js, Node.js, Express.js, MongoDB, Cloudinary, Razorpay, Redux, Redux Toolkit | Live: elearn99.vercel.app

- Built and deployed a live full-stack e-learning platform with Admin, Instructor, and Student dashboards and secure role-based access control.
- Implemented JWT authentication, Google OAuth 2.0 sign-in, and middleware-based route protection for all user types.
- Integrated Razorpay for secure payments, Cloudinary for file uploads, and Nodemailer for email verification/password reset; designed scalable MongoDB schemas for course creation, enrollments, and progress tracking.

CERTIFICATIONS & EDUCATION

Problem Solving & JavaScript (Basic) – HackerRank | Git Training & Intro to MERN Stack – Simplilearn (June 2026)

B.E. Computer Science — RGPV | MBA — PIMR (DAVV)
